JSUNIL TUTORIAL

Sample Paper - 2012 Class - IX Subject - Science

<u> Matter In Our Surroundings</u>

1.	Camphor is pu	urified by the process of -	_							
a.	evaporation	b. distillation	c. sublimation	d. filtra	ation					
2.	LPG is used in	the kitchens in our hom	es in the-							
a.	Solid form	b. compressed	form c. gased	ous form	d. none.					
3.	Which of the f	following is not fluid -	a. water,	b. air,	c. sand,	d. sharbat?				
4.	On Kelvin sca	le 0°C is equal to –	a. 273 K	b273 K	c. 0 K	d. 100 K				
5.	SI unit of temperature is -		a. Kelvin	b. Celsius	c. Fahrenheit	d. Pascal				
6.	Dry ice means	s —	a. solid SO ₂	b. solid water	o solid CO ₂	d. solid CO				
7.	Condensation is a process which involves conversion of –									
a.	solid into liquid b. liquid into vapour c. yapour into liquid d. liquid into solid									
8.	During evapor	ration, the particles of liqu	uid evaporate from	m –						
a.	The bulk of lice	quid b. surface only	c. the s	urface and bulk	of liquid	d. none of them.				
9.	Which of the f	followin <mark>g will n</mark> ot subl <mark>im</mark>	e –							
a.	Camphor	b. ammon <mark>iu</mark> m	ch <mark>lori</mark> de	c. bromine	d. iodine?					
10.	A state of mat	ter whic <mark>h has a</mark> defi <mark>nite s</mark>	<mark>hape a</mark> nd fixed vo	o <mark>lume –</mark>						
a.	Solid	b. liquid	c. gas	d. none	e of these.					
11.	A state of matt	ter whi <mark>ch does n</mark> ot have a	<mark>a defi</mark> nite shape b	ut has definite vo	olume –					
a.	Solid	b. liquid	c. gas	d. none	e of these.					
12.	A state of mat	ter which neither has neit	ther definite shape	e nor definite vo	lume –					
a.	Solid	b. liquid	c gas	d. none	e of these.					
13.	The states of n	natter can be changed by	changing –							
a.	Temperature	b. pressure	c both (a) and	(b) d. none	e of these.					
14.	The rate of eva	aporation does not depen	d on –							
a.	Temperature	b. humidity	c. pressure	d. spee	d of wind.					
15.	Which of the f	following is accompanied	l by cooling –							
a.	Vaporization	b. evaporation	c. condensation	d. none	e of these.					
16.	A bulk phenor	menon in which particles	from whole of th	e liquid change	into vapour state	e is called -				
a. Boili	ng	b. cooling	c. melting	d. none	e of these.					
17.	The amount of	f heat energy required to	change 1 kg of so	olid into liquid a	t its melting poin	nt is called –				
a. Mel	ting point	b. latent heat of fusion			nt heat of vaporiz					
18.	The amount of	f heat energy required to	change 1 kg of 1	iquid into	t its boiling poir	nt is called –	a			
Melting point b. latent heat of fusion c. boiling point d. latent heat of vaporization.										

JSUNIL TUTORIAL

19.	The density of water is	than that of	ice, a. More	b. less c. c	equal to	d. none.				
20.	The temperature at which the solid melts to become a liquid at the atmospheric pressure is called –									
a.	Boiling point b. melting point	c. free	ezing point	d. none of	these.					
21.	The temperature at which the v	apour pressure	e of the liquid be	comes equal	l to the atmo	spheric pressure is				
called -	-									
a.	Boiling point b. melting point	c. free	ezing point	d. none of	these.					
22.	Which is not the characteristic of matter –									
a.	particles of a matter are continuously moving,									
b.	particles of matter move faster on increasing temperature,									
c.	particles of matter intermix with each other on their own,									
d. <	Particles of all maters have same kinetic energy.									
23.	The compressibility of which state of matter is high –									
a.	Solid b. liquid	c. gas		d. all of the	ese.					
24.	Which of the following is the simplest form of matter –									
a. ~	Element b. mixto	ure	c. compound	d. 1	none of these					
25.	Which of them is most energetic	c –								
a.	Solids b. liquids	c. gas	es	d. all of the	em.					
26.	Which of the following is correct	ct f <mark>or someth</mark> in	g to be c <mark>alled m</mark> at	tter -						
a.	It should occupy spaceb. It shou	ll <mark>d ha</mark> ve m <mark>ass</mark>	c. Both (a) and	(b) d.	None of these	e				
27.	Which of the following cannot be	pe <mark>considered</mark> a	s matter –							
a.	Mixture b. affection	c. gas		d. liquid.						
28.	Which of the following is correct	ct about solid c	arbon dioxide –		-					
a.	It is used in theatres to give spec	cial effects.								
b.	It is extremely cold substance.									
c.	It is used to keep freeze food an	d to keep ice-c	ream cold.							
d.	All of them.									
e.	Noneof them.									
29.	Which of the following statements is not correct –									
a.	The density of ice is less than the density of water.									
b.	To convert a temperature on the Kelvin scale to Celsius scale, subtract 273 from the given temperature.									
c.	To convert a temperature on the Celsius scale to Kelvinscale, add 273 to the given temperature.									
d.	Vaporisation of a liquid causes cooling.									
30.	When a substance is directly cha	anged form sol	id state to gas on	heating or fa	rom gas to so	lid on cooling, this				
process	is called –									
a.	Evaporation b. cond	ensation	c. sublimation	d.	vaporization
